Have a question for the panel?

- Question cards are around the room and at the front
- Include your name and your question
- Anything iOS or Apple related
- **Do not include the answer**

*** A \$20 bill will help Shane remember to record your team's points.**

WTF

- Two competing panels
- You ask the speakers
- Speakers asks you
- Points
- Prizes?

- What is your name?
- What is your quest?
- What is your favorite color?
- What is the air speed velocity of an unladen swallow?

EventKit is now included in watchOS

2.0. How would you create and save
a reminder in watchOS 2.0 using
EventKit?

- In official advertisements and photos, what time is displayed on all iPhones, iPads, and iMacs? And why?
- Which Mac clone maker used a cartoon with the tagline, "Let's kick Intel's Ass!" ?
- Which public Framework contains the most curse words?
- What TIFF variant will display correctly using Preview on a Mac, but potentially only partially display on iOS?

App Architecture Game

Real or fake app architecture pattern?

- Which iOS 12 authorization option allows you to send notifications to a user without requesting permission?
- What's the first black computer manufactured by Apple?
- A legacy app stored a struct on an iPhone 7, containing 3 ints, a long, a double and a bool. How much bigger is the struct after enabling arm64 support?
- Which is not an Apple prototype name?
 - *Tommy, Sneezy, DynaBook, Baby Mac, Jonathan*

- Which developer tool had this icon?

- Which developer tool had this icon?

There's an app for that?

- What would you have to create if you wanted to extend Hypercard with a C function?
- Say you have a legacy program that over-releases NSNumber and crashes. What can you do without changing any code to fix that?
- The Apple Newton MessagePad just marked its 25th Anniversary. Can you name every model that ran Newton OS that Apple ever shipped?
- What was the hardware freebie that Apple gave developers in WWDC 2003?

Xcode UI Library

Objects

View Controller - A controller that manages a view.

Storyboard Reference - Provides a placeholder for a view controller in an external storyboard.

Navigation Controller - A controller that manages navigation through a hierarchy of views.

Table View Controller - A controller that manages a table view.

Collection View Controller - A controller that manages a collection view.

Tab Bar Controller - A controller that manages a set of view controllers that represent tab bar items.

Split View Controller - A composite view controller that manages left

2

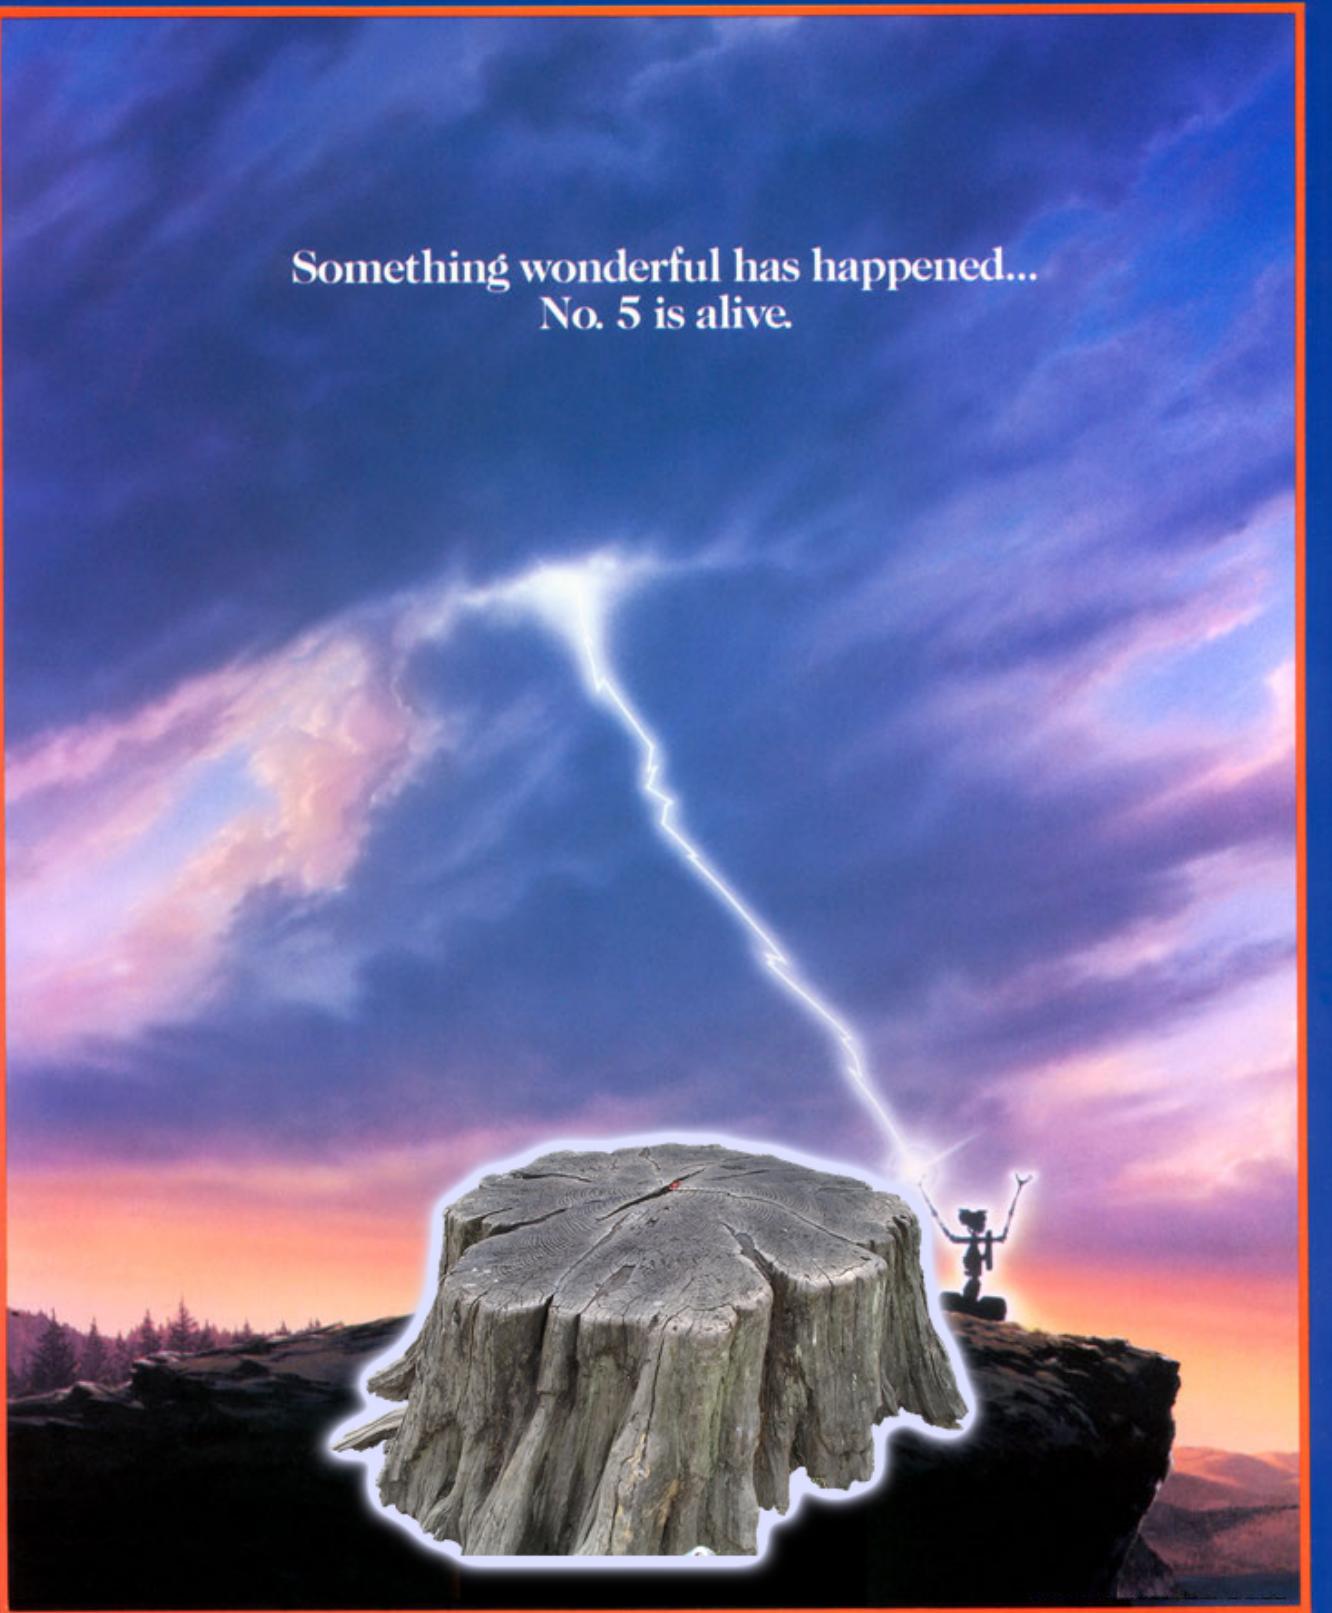

- What stringsdict feature **isn't** fully supported by Xcode's localization import and export functionality?
- What was the title of the first WWDC session where James Dempsey performed a song?
- Name a class name in an Apple framework that is plural.
- The original Macintosh would chime 4, 5, or 6 times when there was a hardware error. What did 6 chimes signify?

Name that Framework

- On iOS, how can a user or developer ask CoreSpotlight to reindex?
- What identifier do you use to customize your app's grouped notification stacks?
- When lldb imports a python file, what is the name of the function that lldb invokes?
- What Javascript event shares its name with a similar one from HyperCard?

Encore questions

- From Mac OS X 10.2 to Mac OS X 10.2.4, some “good” PICT files stopped working with the standard graphics processing framework. Apple restored support in 10.2.5. What was the failure?
- What was the code name Macintosh going to be released as?
 - *'Apple X'*, *'Lisa II'*, *'Bicycle'*
- What was Xcode called before it was Xcode?
- There were two different handwriting recognition engines for the Newton. The original, and then the one that shipped with 2.0. What were the names of the two engines?

Something wonderful has happened...
No. 5 is alive.
